

# Liquid Protein Base

## Rubix Foods Performance Blends

An enhanced version of our all dairy, clean label Protein Base with all of the same benefits, plus improved operational efficiencies.

### Features & Benefits

- Pourable base simplifies operational execution at the manufacturing level
- Boosts protein while reducing total fat
- Provides fortification, texture, mouthfeel, body and stability
- Heat, acid and freeze thaw stable contributing to operational efficacy and efficiency throughout processing
- Highly cross-functional, can enhance product performance on its own or in combination with other functional ingredients

Over 2/3 of consumers eat protein or protein-enriched foods to achieve health or body goals, especially Gen Z and Millennials.  
- Datassential Food as Medicine, 2025
